1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Coolabah Capital Investments (Retail) Pty Limited as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Coolabah Capital Investments (Retail) Pty Limited

The Investment Manager is Coolabah Capital Investments (Retail) Pty Ltd (CCIR), which is a corporate authorised representative (#000414337) of Coolabah Capital Institutional Investments Pty Ltd (AFSL 482238).

CCIR has appointed its related entity, Coolabah Capital Institutional Investments Pty Ltd (CCII), as the Portfolio Manager to which it sub-delegates all portfolio management responsibilities for the Fund and its other fixed-income products. Both the Investment Manager and Portfolio Manager are wholly owned subsidiaries of Coolabah Capital Investments Pty Ltd (CCI). CCI is 75% owned by its portfolio management team, and one quarter owned by Pinnacle Investment Management Group Limited, a leading Australian-based multi-affiliate investment firm.

Established in 2011, the CCII's goals are to develop and deliver low risk savings and retirement solutions that outperform traditional cash and fixed-income products through active portfolio management. As at 31 January 2021, it managed approximately \$5.0 billion in assets.

These savings solutions, which include this Fund, have been created to satisfy demand for lower risk investment products that can:

- provide investors with cash and fixed-income opportunities that add value generally beyond deposits,
- outperform conventional fixed-income investments without taking significant interest rate duration risk,
- offer investors diversification opportunities away from the volatility of the share market, and
- supply retirees with regular quarterly income.

2. How the Smarter Money Fund - Base Fee Class works

The Fund is a class of the Smarter Money Fund ARSN 154 023 408, a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS or using the online application at www.coolabahcapital.com. The minimum initial investment amount for the Fund is \$1,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Mainstream Fund Services Pty Ltd
GPO Box 4968
Sydney NSW 2001

Please note that cash cannot be accepted.

By completing the online application at www.coolabahcapital.com, you can identify yourself and transfer funds with BPAY[®] or electronic funds transfer (EFT) (a reference number will be sent to you).

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is nil.

The Buy Sell Spread may change depending on the liquidity of the assets within the Fund's portfolio at that time. Any changes to the spreads after the date of this PDS will be published on the Funds website at www.coolabahcapital.com

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. Alternatively complete the online application. You can transfer funds with BPAY or electronic funds transfer (EFT). The minimum additional investment into the Fund is \$1,000 or \$100 per month through a savings plan. For more information on savings plans, BPAY and EFT see the Reference Guide.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly at the end of June, September, December and March. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Mainstream Fund Services Pty Ltd
GPO Box 4968
Sydney NSW 2001

Or sending it by fax to +61 2 9251 3525

Or sending it by email to registry@mainstreamgroup.com

The minimum withdrawal amount is nil. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 3 Business Days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. Access to your investment at the end of a distribution period will take longer as the Fund's unit price is placed on a temporary hold whilst the distribution is calculated. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 180 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.025%.

The Buy Sell Spread may change depending on the liquidity of the assets within the Fund's portfolio at that time. Any changes to the spreads after the date of this PDS will be published on the Funds website at www.coolabahcapital.com.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$1,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Market risk

This is the risk that an entire market, country or economy (such as Australia) changes in value or becomes more volatile, including the risk that the purchasing power of the currency changes (either through inflation or deflation), potentially causing a reduction in the value of the Fund and increasing its volatility. This may be because, amongst many other things, there are changes in economic, financial, technological, political or legal conditions, natural and manmade disasters, conflicts and changes in market sentiment.

Investment and credit risk

This is the risk that the value of an individual investment in the Fund may change in value or become more volatile, potentially causing a reduction in the value of the Fund and increasing its volatility. This may be because, amongst many other things, there are changes in government or bank policies, the Investment Manager's operations or management, or business environment, or a change in perceptions of the risk of any investment. Various risks may lead to the issuer of the investment defaulting on its obligations and reducing the value of the investment to which the Fund has an exposure.

Interest rate risk

This is the risk that changes in interest rates can have a negative impact on certain investment values or returns. Reasons for interest rates changes are many and include variations in inflation, economic activity and Reserve Bank of Australia (RBA) policies. However, interest rate risk with this Fund is reduced because the Fund predominantly invests in cash and floating-rate debt securities and is prohibited from investing in fixed-rate (i.e. not floating-rate) debt securities with a term to maturity of longer than 12 months unless it hedged the interest rate risk.

Ratings risk

The assets in which the Fund invests may or may not have been assigned credit ratings by independent ratings agencies. A ratings downgrade could significantly reduce the value of an investment and impact the value of the units of the Fund. Credit ratings do not guarantee the credit quality of a security, its underlying assets or its repayment, and may be re-assessed by ratings agencies in a range of circumstances. Ratings agencies can make mistakes. The Investment Manager seeks to minimise this risk by assessing the credit risks inherent in any investments it makes.

Risk measure

The Investment Manager considers that the 'standard risk measure' for this Fund is a conservative style fund, with a Very Low risk rating, which means that the estimated number of negative annual returns over any 20 year period is less than 0.5. On a scale of 1 to 7 where 7 is riskiest in this respect, the Fund is in category 1.

The standard risk measure is based on industry guidance to allow investors to compare investment options that are expected to deliver a similar number of negative annual returns over any 20 year period. It is not a complete assessment of all forms of investment risk, for instance it does not detail what the size of a negative return could be or the potential for a positive return to be less than an investor may require to meet their objectives. Further, it does not take into account the impact of fees and tax on the likelihood of a negative return.

Investors should still ensure they are comfortable with the risks and potential losses associated with the Fund.

Further reading...

You should read the important information in the Reference Guide under "Additional information on risks" about the risks associated with investing in the Fund before making an investment decision. 5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund targets returns above the average returns of traditional cash products after management costs.

More specifically, the Fund targets returns that outperform the Reserve Bank of Australia's (RBA's) cash rate by 1.0% to 2.0% pa after management costs, over a rolling 12 month period.

The investment objective is not intended to be a forecast. It is only an indication of what the investment strategy aims to achieve over a rolling 12 month period. The Fund may not achieve its investment objective. Returns are not guaranteed.

Benchmark

RBA cash rate plus management fees (0.79% p.a.)

Minimum suggested time frame

Greater than 1 year.

Risk level

Low.

Investor suitability

Those seeking returns above the average of traditional cash products.

Investment style and approach

Although the Fund is not the same as a bank account, the Fund does have a conservative investment approach:

- the Fund is permitted to invest in bonds, such as government and semi-government bonds, bank and corporate bonds, and asset-backed securities, including residential-mortgage backed securities, issued in Australian Dollars or in G10 currencies hedged to Australian Dollars;
- the Fund is also permitted to invest in cash and cash-equivalent securities, exchange traded derivatives and over-the-counter derivatives;
- The Fund may also invest in units in an ASX-listed fund or trust that solely invests in Australian-dollar denominated deposits, issued by APRA-regulated, Authorised Deposit-taking Institutions,
- all the Fund's investments are Australian Dollar-denominated or fully hedged into Australian Dollars (so the Fund has minimal direct exposure to foreign exchange risk);
- all the Fund's debt securities are of an 'investment grade' quality when bought, ('investment grade' normally equates to a Standard & Poor's rating of between BBB- and AAA, or equivalent rating).
- the Fund targets a dollar-weighted average Standard & Poor's 'A' credit rating across its bonds and deposits (or equivalent rating as determined by rating agencies),
- the Fund does not invest directly in listed or unlisted shares (so the Fund has no direct exposure to the volatility or risks of those markets),
- the Fund does not invest in fixed-rate debt securities with maturities greater than 12 months unless it hedges out the fixed interest rate component (so the Fund does not carry the significant interest rate (or duration) risk associated with these assets) and targets holding interest rate duration risk of less than 3 months,
- the Investment Manager seeks to limit the Fund's interest rate risk, as defined by changes in capital values resulting from interest rate movements, by investing in short-term deposits and floating-rate debt securities that ensure the Fund's underlying income moves when the RBA's cash rate moves,
- the Fund places a maximum limit on its exposure to asset-backed securities and requires these to have a minimum 'A-' credit rating,
- the Fund is not permitted to use leverage or gearing to enhance its returns, and

- the Fund has a very low risk rating under the 'standard risk measure' (see the **Risks** section of this PDS for details).

The Fund also has access to liquidity facilities that allow assets that are classified as "eligible securities" for repurchase by the RBA to be swapped with major Australian and international trading banks in exchange for cash, subject to these banks accepting these assets as part of their own repurchase operations. The Fund targets having at least 30% of its investments in cash and investment-grade assets that are classified as such repurchase eligible securities.

Due to movements in the market or similar events, the guidelines set out above may not be adhered to from time to time. In these circumstances, the Investment Manager will seek to bring the Fund's investments within the guidelines within a reasonable period of time.

Asset allocation

The Fund is actively managed by the Investment Manager and aims to take advantage of investment opportunities within the Australian cash and fixed-income markets.

Investment in the Fund is not the same as putting your money into a bank account. The Fund invests in cash instruments and investment grade debt securities, including at-call deposits, term deposits, bank bills, money market securities and investment-grade bonds issued by governments, government-owned enterprises, banks and companies. The Fund may also invest in units in an ASX-listed fund or trust that solely invests in Australian-dollar denominated deposits, issued by Authorised Deposit-taking Institutions (ADIs) which are regulated by the Australian Prudential Regulation Authority (APRA). It is also possible that from time to time derivatives may be used to manage the Fund's risks when considered appropriate.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

The Portfolio Manager considers that environment, social and governance (ESG) factors are crucial inputs into its investment process and have potentially profound consequences for the performance of our investments, including, most notably, downside risks but also upside mispricing potential in terms of the value of those assets. Nuanced ESG factors are often overlooked by the market and credit rating agencies when assessing the creditworthiness and valuations of fixed-income securities. Given its activist investment style, the Portfolio Manager is deeply engaged with its target companies and relevant regulators and government stakeholders, dynamically evaluating the status of different ESG factors and seeking to understand their future path. ESG is therefore a core part of the Portfolio Manager's quantitative and qualitative due diligence and wider investment process.

The types of ESG factors that the Portfolio Manager takes into account as part of its quantitative and qualitative investment process include, but are not limited to:

- Environmental: weather related risks, dependency on prices of assets that may be impacted by environmental considerations, pollution and environmental disruption, environment sustainability, and associated reputational and brand risks.
- Social: political stability in countries of operation, human rights record of company and countries of operation, diversity, commitment to maintaining internal and customer privacy, including cyber-security, impact on local communities, health and safety, and associated reputational and brand risks.
- Governance: board composition, risk management track-record, legal and compliance track-record, history of prosecutions, management remuneration, distribution of equity, and associated reputational and brand risks.

The Portfolio Manager's ESG Policy (available here: www.coolabahcapital.com/esg-policy) details the relevance of ESG considerations to its investment process and describes how active analysis of ESG factors is integrated into decision-making. The Portfolio Manager's ESG Policy is reviewed at least once a year by the Portfolio Manager's Audit, Risk & Compliance Committee.

Fund performance

Up to date information on the performance of the Fund can be obtained from www.coolabahcapital.com. A free of charge paper copy of the information will also be available on request.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.79% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is nil upon entry and 0.025% upon exit. The dollar value of these costs based on an application or a withdrawal of \$1,000 is \$0 (application) and \$0.25 (withdrawal) for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.coolabahcapital.com will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.00% p.a. of the NAV of the Fund, which is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information for a similar product offering in the market offered by the Investment Manager.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 4.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on 1300 901 711 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Smarter Money Fund - Base Fee Class		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.79% p.a.	And , for every \$50,000 you have in the Smarter Money Fund - Base Fee Class you will be charged or have deducted from your investment \$395 each year
Plus Performance fees	Not applicable	And , you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.00% p.a.	And , you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of Smarter Money Fund - Base Fee Class		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$395* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Mainstream Fund Services Pty Ltd
GPO Box 4968
Sydney NSW 2001

By completing the online application at www.coolabahcapital.com, you can identify yourself and transfer funds with BPAY[®] or electronic funds transfer (EFT) (a reference number will be sent to you).

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Cooling off period

If you are a retail client (as defined in the Corporations Act) who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period, this could include selling part of your investment or switching it to another product.

Indirect investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in a fund by the IDPS. The right to cool off in relation to a fund are not directly available to an indirect investor. This is because an Indirect Investor does not acquire the rights of a unit holder in a fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in a fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to a fund and any rights an indirect investor may have in this regard.
