Overview

The Coolabah Long-Short Credit PIE Fund harnesses Coolabah’s 35 person team to actively exploit mispricings in Australian and global cash and bond markets to generate daily liquidity returns that exceed a target of the RBNZ cash rate plus 4% to 6% pa after fees and before tax with an average A credit rating and near-zero interest rate duration risk.

The Coolabah Long-Short Credit PIE Fund provides exposure to a diversified portfolio of cash securities and floating-rate (or hedged to floating) notes with an average investment-grade credit rating through investing in Coolabah’s Smarter Money Long-Short Credit Fund.

The Fund’s investments are hedged to a floating-rate (ie, not fixed-rate) exposure that means it has near-zero interest rate (duration) risk. It is typically placed in the “unconstrained fixed-income” or “defensive alternative” universes.

The Fund is a portfolio investment entity (PIE), a New Zealand managed fund that offers investors special tax rules that apply to the income earned by the Fund. The PIE rules mean that investors pay tax on their own tax rate (the Prescribed Investor Rate or PIR), which is usually slightly lower than their income tax rate. Refer to the Product Disclosure Statement for more information.

The underlying Smarter Money Long-Short Credit Fund is rated by numerous researchers with a quant rating from FE Analytics and qualitative ratings from Atchison, Foresight Analytics, Lonsec, Mercer and Zenith.

The underlying strategy invests in cash securities, bonds and hybrids. It cannot invest in equities or property.

It provides convenient online account access with daily redemption rights on a T+3 business days basis.
